

Network Printers

Color Laser Printer

The bidder shall provide pricing to provide a suitable network-attached color laser printer, to be housed in the Work Room (Room 117). This printer shall be capable of printing on Letter, Legal, and Tabloid-sized paper utilizing one or more automatic trays and at least one manual tray. The printer shall be capable of printing approximately 15 color pgs/min, and 30 black-and-white pgs/min. The printer should utilize multiple color cartridges. **One (1)** color printer is required.

Black-and-White Laser Printer (Optional)

The bidder shall provide stand-alone pricing for an optional second network-attached printer. This printer would be used for grayscale printing only. Feed rates and paper sizes supported should be similar to the color laser printer above.

Multimedia Cart

General Description

The bidder shall supply pricing for **One (1)** wheeled multimedia cart containing:

- ❖ One (1) Notebook Computer, conforming to the general requirements for computers, as outlined in the next section (no docking station or extra peripherals needed).
- ❖ One (1) VHS/DVD Combo Device
- ❖ One (1) VGA Projector, capable of using either of the above as an audio/video source, and preferably permitting switching between sources without re-cabling. Projector should have adjustable leveling feet.
- ❖ Sufficient A/V Cabling for hooking up either source device to the projector. Cabling shall be of sufficient length to support placing the projector up to 48" away from the cart.
- ❖ A suitable surge protector/power strip.
